BREAKFAST&BRUNCH

LUNCH

PROUD OF OUR ORGANIC COFFEE

At Anne&Max we are especially proud of our coffees. With every new harvest we carefully select the different types of beans for our coffees. We only work with the very best quality in organic Arabica coffee. We visit the coffee farmers ourselves, to discuss how we can make even better coffee together and how we can work together over the long term.

OUR VERY OWN ROASTED COFFEE BEANS

Our coffees are roasted by the expert roasters at Keen. They roast all coffee beans separately and mix them into our 'Huiskamerblends'. Each season we have a different single origin espresso with the special taste of one specific plantation.

JUST ASK US

All Anne&Max baristas are trained internally and tested continuously on how to make the most delicious and beautiful coffees for our guests. They can tell you everything about the flavours and origin.

DRINK YOUR ANNE&MAX COFFEE IN THE COMFORT OF YOUR OWN HOME

You can also take Anne&Max coffee beans home (or to the office). We can grind the coffee beans for you to the desired consistency for the brewing method of your choice. If you'd like to know more about our coffees and how you can make the perfect cup, please ask us for our book 'Koffie Thuis'.
